Subject: Additivity White Paper
Attachments: Additivity Report 4-30-19 (track changes).docx; Additivity Report 4-30-19 (clean copy).docx

Here is the final version, in both track changes and clean formats, for your editor to process. We think we have covered all reviewer comments. We will send you our response-to-reviewer-comments document a bit later, as we are not quite finished cleaning it up. Glenn is out this week, so it won't be right away. If there are any remaining issues after that, we can discuss including them in a charge to external reviewers.
